

PERCEPTIV™
Think Better

Thank you for ordering PERCEPTIV™, the leading brain health supplement proven by independent university research.

The following pages contain tests of executive function to see how PERCEPTIV is working for you.

Please take each test (Trails A & B) before you use PERCEPTIV. Take PERCEPTIV daily for at least 1 month (2 months is better for a true measure) and then test yourself again. Try to take the second test under the same conditions (adequate sleep, quiet place to focus, etc.) as you did your first test.

Trail Making Test (TMT) Parts A & B Instructions

Both parts of the Trail Making Test consist of 25 circles distributed over a sheet of paper.

In Part A, the circles are numbered 1 – 25. Draw lines to connect the numbers in ascending order.

In Part B, the circles include both numbers (1 – 13) and letters (A – L); as in Part A, draw lines to connect the circles in an ascending pattern, but with the added task of alternating between the numbers and letters (i.e., 1-A-2-B-3-C, etc.).

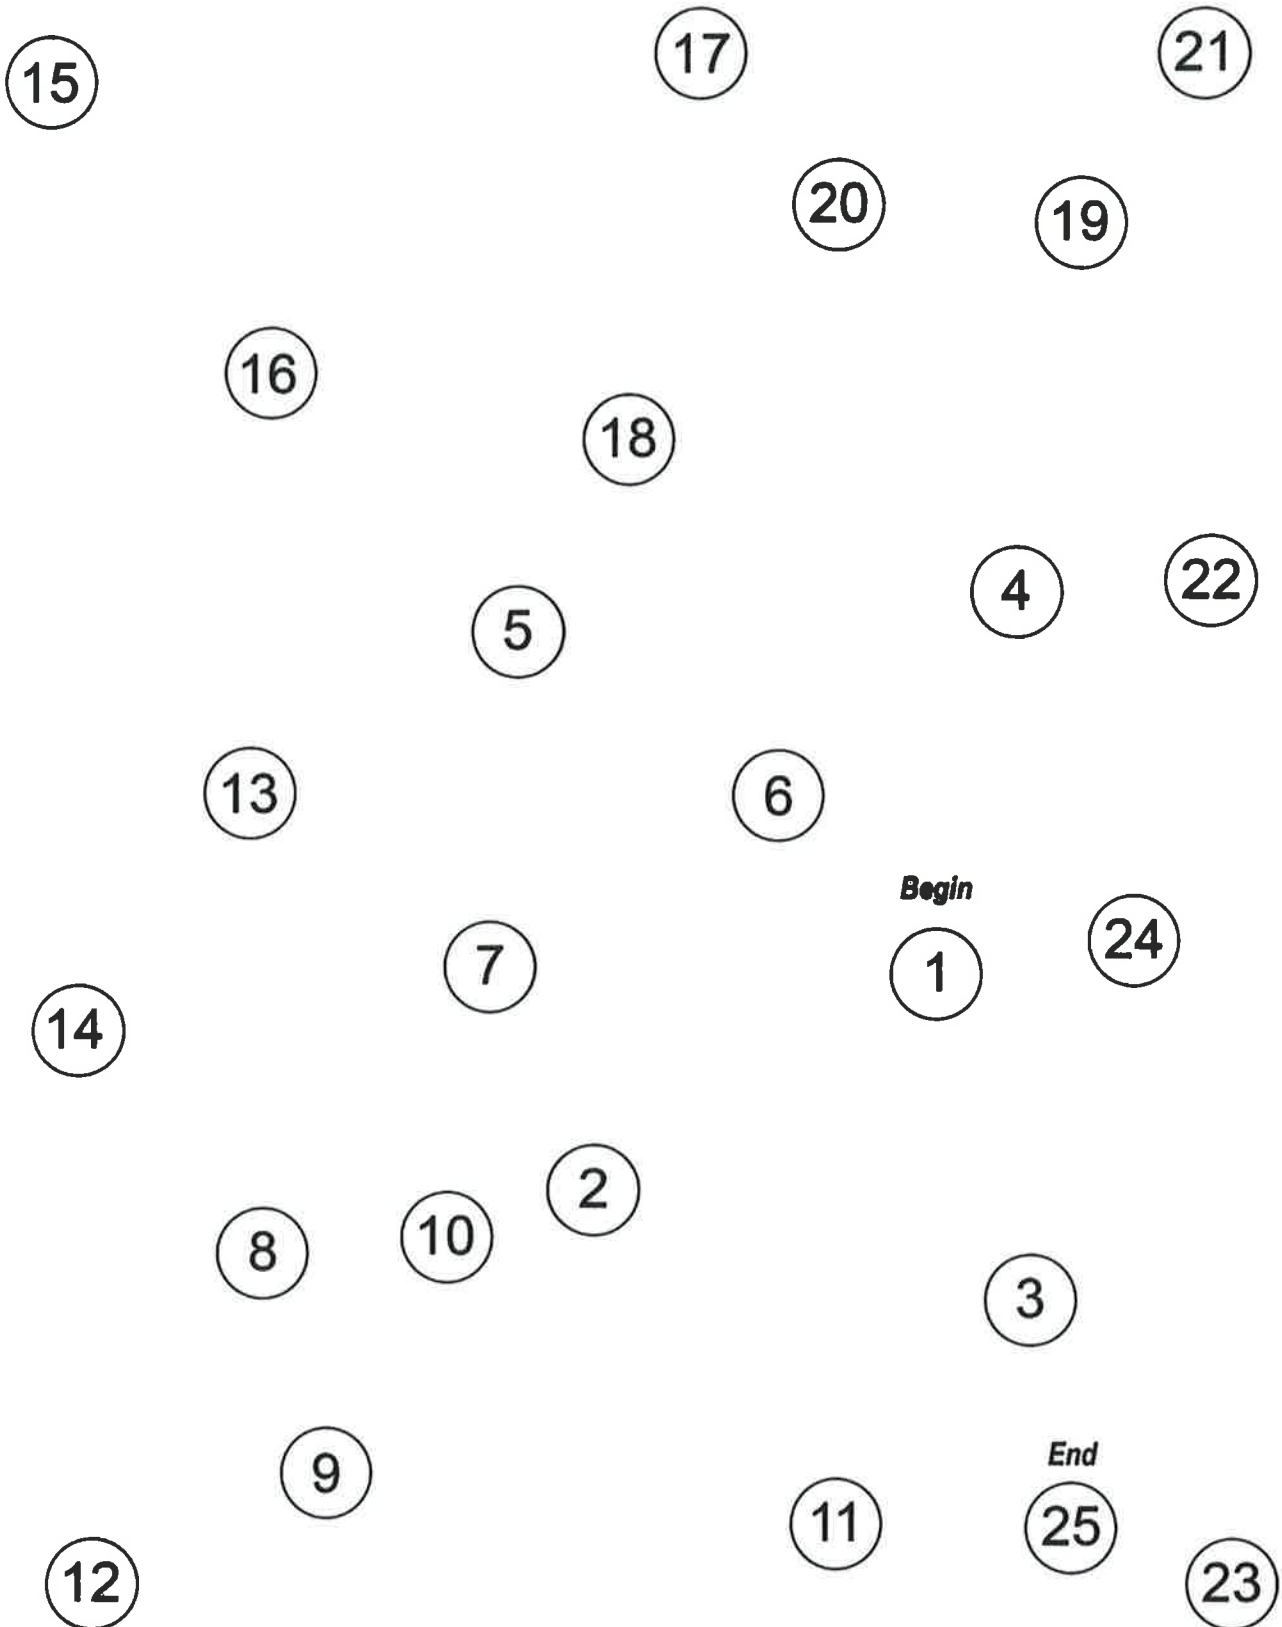

Connect the circles as quickly as possible, without lifting the pen or pencil from the paper. Time yourself to see how long it takes you to complete the exercise. If you make an error, correct it and continue on the trail. Errors will affect your score only in that the correction of errors is included in the completion time for the task.

Results for both Trail Making Test A and B are reported as the number of seconds required to complete the task. Below are averages for the U.S. population.

	<u>Average</u>	<u>Rule of Thumb</u>
Trail A	29 seconds	Most in 90 seconds
Trail B	75 seconds	Most in 3 minutes
